Severe Weather Outlook Tuesday, November 08, 2016

Hazardous Weather

Freeze Warning In Effect

- Tonight Until Wednesday Morning
- Lows of 26 to 32 Degrees Expected For The Warned Area
- Sensitive Plants & Crops May Be Damage Or Killed. Protect Plants Or Bring Them Inside.

National Weather Service - Amarillo

Issued: 11/8/2016 2:47 AM

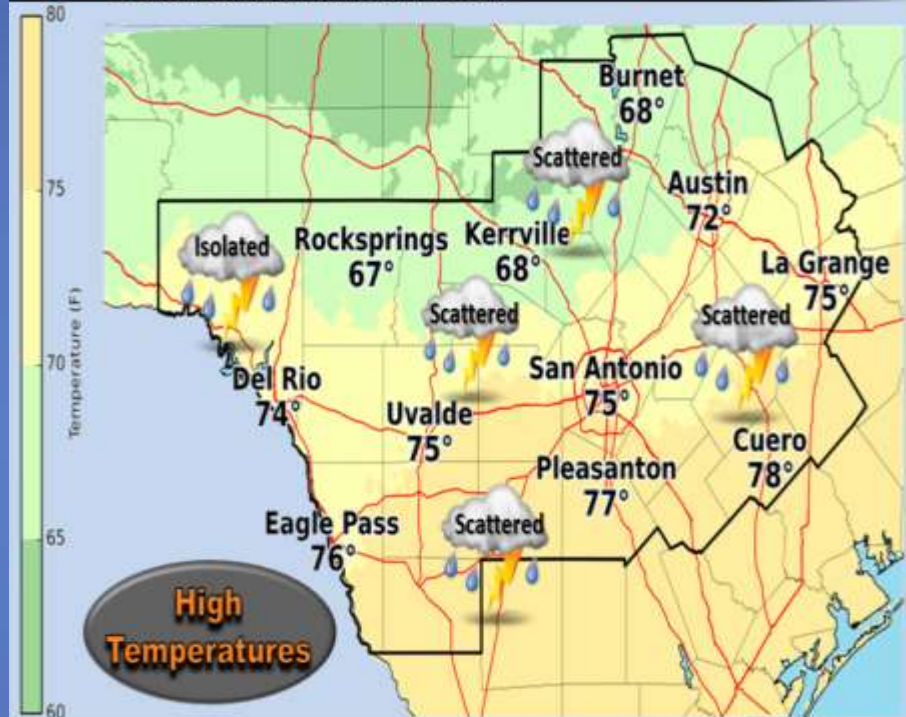

Widespread freezing temperatures expected across most of the combined Panhandles Tonight into Wednesday morning. Overnight low temperatures in the warned area are expected to drop into the mid 20s to low 30s. Preparations should be made to protect sensitive plants and crops as these temperatures will be capable of damaging or killing sensitive vegetation.

Mild with Scattered Thunderstorms Possible

National Weather Service Austin / San Antonio

@NWSSanAntonio
weather.gov/ewx

5:00 am Tuesday, November 8th, 2016

Scattered showers and isolated thunderstorms are possible today as a cold front makes its way through the region from the northwest to the southeast. Shower activity should diminish after sunset tonight as drier low-level air will begin filtering into the area in wake of the cold front. High temperatures today will be near seasonal normals.

Hazardous Weather

The combination of an upper level disturbance and a frontal boundary will contribute to scattered showers and thunderstorms Today. Highs in the upper 70s to near 80.

Hazardous Weather

Mostly cloudy skies with showers and thunderstorms likely on this Election Day across South Texas and the Rio Grande Valley as the trough deepens across the state. Temperatures across the region are expected to be near normal in the low 80s.
